

# Skotial.

BUY SHOPPING VOUCHERS WITH  
SKOTIAL & GET AWESOME REWARDS

BROUGHT TO YOU BY **Skotial.** & **SHOPRITE**

# Money Market vouchers

Our partnership with Shoprite Holdings means you can now buy shopping vouchers on Skotial. The vouchers from Skotial come in three set amounts; A. R390, B. R980, & C. R1500.

Once a voucher is bought, the user will receive the voucher on their phone. This voucher can then be used at any Shoprite, Checkers, Ok, & other stores under Shoprite Holdings. Yes that means their liquor stores too, now that's news worth drinking to.

Vouchers are currently only available in South Africa.

There is a 9.5% transaction fee on voucher purchases, which is nothing compared to what we give you for choosing Skotial.

## Rewards & incentives

Users who purchase a voucher will automatically be upgraded to premium membership which means:

That they will earn monthly cash rewards depending on the profit made by Skotial.

Stokvels connected to the users will earn 12% of their members' monthly cash rewards. *(stokvel needs to have a minimum of 15 members in order to benefit. It must have been in existence for a period of 6 months or more)*

All members of the stokvel must purchase Shoprite vouchers, from the Skotial e-store, every month for the stokvel to benefit.

### How to buy a voucher

Register on Skotial  
[www.skotial.net](http://www.skotial.net)

Buy credits in your Skotial wallet

Pick the amount & pay with your debit card or EFT

Select the voucher of your choice on the Skotial store and pay with the credits in your wallet

Receive the voucher on your phone, and use it at any Shoprite holdings shop

## Even more benefits

Upon purchasing a voucher, users are automatically upgraded to premium membership, which has even more benefits, such as:

Monthly cash rewards ( amount determined by Skotial's profits )

Stakeholders will earn 7.8% of their members' earnings. They will also earn between 0.5% and 1% of their members' total monthly purchase. ( Stakeholders must have 1000+ members

The cherry on top is that users can - send cash to other users, or to their own bank accounts from anywhere in the world, instantly.

Giving you easy access to your money
